

Intel Corporation is providing strategic leadership for some of the world's most advanced RFID-EPC deployments at the pallet, case, carton and item level. Intel is working with leading consulting, integration, software and hardware companies to develop powerful integrated RFID-EPC solutions for the retail and CPG industries using hardware and software based on robust, open standards-based architectures. For more information on Intel's involvement in RFID technology, please visit: <http://www.intel.com/business/bss/technologies/rfid>

Intel, the world's largest chip maker, is also a leading manufacturer of computer, networking and communications products. Additional information about Intel is available at www.intel.com/pressroom.
