

About Omron

Headquartered in Kyoto, Japan, OMRON Corporation is a global leader in the field of automation with \$5.5 billion in annual revenue. Established in 1933 and headed by President and CEO Hisao Sakuta, OMRON has more than 26,000 employees in over 35 countries working to provide products and services to customers in a variety of fields including industrial automation, electronic components, social systems and Health Care products. **Omron's RFID Division** has been in the RFID business for over 20 years and is headquartered in Tokyo, Japan, with European Operations in Hoofddorp The Netherlands and US operations in Schaumburg, Illinois. As an EPCglobal member, OMRON offers a wide range of RFID products including inlays/labels and readers for HF (13.56 MHz), UHF (868 MHz & 915 MHz) and other frequencies. Our focused business domains for European market are Retailer Supply Chain management, Product Authentication/Brand protection, and Asset /RTI tracking. With Omron, customers and partners have access to top quality state of the art RFID technology. We strive to add value through tailored performance to customers' needs and customization of RFID system whenever needed and/or possible.
