

2006

As a company specializing in land transport on road and rail within Europe, our closely woven network of regularly scheduled routes connects the principal economic regions in over thirty-five European countries.

Schenker is specialized in providing complex solutions for air and sea freight and associated logistics services on a global scale. Asia, the Americas and Europe are our homemarkets.

Schenker's integrated logistics centers located at the hubs of the global flow of goods create an effective link between all carriers, allowing us to offer a broad range of added-value services and universal supply chain management.

Experts provide complete solutions tailor-made for the requirements of industry today and tomorrow. International teams of specialists integrate the Group's individual service modules to create complex added-value chains that ensure a reliable flow of materials and information.

Schenker provides its customers with all the main services from a single source – a business principle that has proved its worth ever since the company was founded by Gottfried Schenker in Vienna almost 135 years ago. Schenker is a part of DB Logistics, the Transportation and Logistics Division of Deutsche Bahn AG.

*Partner

Schenker is one of the world's leading providers of integrated logistics services. We provide support to trade and industry in the global exchange of goods – in worldwide air and sea freight, in land operations, and in all the associated logistics services. 42,000 employees at about 1,100 offices around the world achieve a turnover of almost nine billion euros per year.

The combination of Schenker and BAX gives rise to a highly competitive worldwide network for logistics, with 1,500 locations in 150 countries and a team of about 50,000 experts, creating unique opportunities for customers from industry and commerce.

- Together Schenker and BAX Global are now the world's
- No 1 source for European land transportation
 - No 2 for global airfreight
 - No 3 resource for global seafreight
 - No 6 for global contract logistics
 - No 3 for North American integrated heavy freight.
