PRODUCTS

Radio frequency identification (RFID): Our leading RFID products include fixed and mobile readers, antennas, tags, package systems and services — everything you need to realize the maximum value from your RFID solution.

Mobile computers: Our award-winning, rugged industrial- and enterprise-class wireless, handheld and fixed-mount computers are used across multiple industries and environments. Available in a range of form factors and operating systems, our mobile computers combine power and performance with durability and ease of use.

Data capture devices: Our scanners, Micro Kiosks™ and payment systems deliver reliable data capture for scan-intensive applications in a full range of environments, from in-store retail to heavy industrial use.

Wireless infrastructure: Our wireless infrastructure products help you securely deliver reliable and available mobile connectivity across your enterprise by centralizing the management of hardware, software configuration, network policies, access ports and points (APs) and Power over Ethernet (PoE).

Mobility software: Our software solutions give you complete control of your enterprise mobility solution, from total visibility of your wireless infrastructure and client devices at distributed locations to remote troubleshooting and wireless network security.
